# UNDERSTANDING AND IMPROVING PSYCHOSOCIAL FUNCTIONING IN PEDIATRIC SICKLE CELL DISEASE

**January 23, 2015 • 10:00am - 11:00am**

## Goal/Purpose:

This SCHOOLS presentation is brought to you through a partnership with LEND to discuss the impact of pediatric sickle cell disease on psychosocial functioning and interventions that help children and families cope with the consequences of the disease.

## Objectives:

At the completion of this session you should:

- Identify the key medical complications associated with pediatric sickle cell disease.
- Describe the psychological and social consequences of medical complications in pediatric sickle cell disease.
- Identify interventions that can help children and families to better cope with psychosocial consequences of sickle cell disease.

**Instructor:** Alyssa Schlenz, Ph.D., MUSC Department of Pediatrics, Division of Developmental and Behavioral Pediatrics

## How to Participate?

- This program is being broadcast over the SCHOOLS network of videoconferencing systems across South Carolina. Participants will be able to fully interact with the speaker during this presentation including time for Q&A.
1. Hospitals and AHECs indicate their participation at [www.scahec.net/schoolsmanager](http://www.scahec.net/schoolsmanager)
  2. Individuals locate a participating location (see next page) where you can view the session.
  3. Individuals register at [www.scahec.net/schoolsregistration](http://www.scahec.net/schoolsregistration)
