A How-To for South Carolina PA's: Communities & Practices Join the Obesity Fight

The economic cost of obesity in South Carolina is estimated to be \$8.5 billion per year and growing. Obesity impacts all medical providers: surgical, non-surgical, adult, geriatrics, and pediatrics. The risks of not reversing this epidemic will surely be detrimental to all of our health. You and your healthcare team members can learn the "How-To" for fighting obesity in your community. Please accept our invitation to a free CME tele-conference led by our state's most respected obesity experts.

Objectives

At the completion of this program, you should be better able to:

- Define the various social and environmental influences that impact a person's health.
- Use the County Health Rankings to describe the current health and factors that affect health in your community.
- Identify resources to positively influence the social and cultural contributing factors resulting in better weight control.
- Implement utilization of the 5-2-1-0 Toolkit within your respective community environments (schools, child care, healthcare and workplaces).

Credit

This program is not yet approved for CME credit. Conference organizers plan to request 3 hours of AAPA Category 1 CME credit from the Physician Assistant Review Panel. Total number of approved credits yet to be determined.

Register to participate in the live tele-education program from locations statewide at www.scahec.net/schools

Can't make the live program?
The video will be available on the SCHOOLS website mid-April.

This program will be held in room number 803-555-1199.
