

SCHOOLS Presents...

Building Primary Care Teams to Support Great Diabetes Outcomes

October 29, 2015 • 1:00-2:00pm

Goal/Purpose:

This SCHOOLS program is the sister tele-presentation to the article in the latest *Progressnotes*, MUSC's medical magazine. Learn about the future of diabetes care from two leaders in the field: Dr. Leonard E. Egede, Professor of Medicine and Director of the Center for Health Disparities at the Medical University of South Carolina, and Dr. Samuel Cykert, Professor of Medicine at the University of North Carolina at Chapel Hill. Topics to be discussed in this CME-eligible telepresentation include the building of primary care teams to support great diabetes outcomes, the implementation of quality improvement initiatives to address health care disparities, and the potential of mHealth technology to one day improve follow-up of patients with type 2 diabetes.

Objectives:

At the completion of this session you should be better able to:

- Define the chronic care model and give examples of how it could be implemented effectively in a primary care practice.
- Recognize the importance of tailoring medication regimens to address patient concerns, such as cost, to improve adherence.
- Recognize the importance of implementing quality improvement initiatives to address health care disparities.

Instructors:

Samuel Cykert, MD, Professor of Medicine and Director of the Program on Health and Clinical Informatics, UNC School of Medicine

Leonard E. Egede, MD, MS, Allen H. Johnson Endowed Chair and Professor of Medicine; Director, Center for Health Disparities Research, MUSC
