

South Carolina Rural Dentist Loan Repayment Program

About the Program

To address the maldistribution of dental providers in South Carolina, the Rural Dentist Loan Repayment Program provides educational loan repayment for qualified providers who contract to practice in rural and underserved areas or serve as faculty at the MUSC College of Dental Medicine.

Medicaid Provider Status

Applications from providers currently in practice must include an **individual** Medicaid provider number in order to be considered. This stipulation does not apply to students who have not yet completed their training. For students who will establish practice upon completion of training, access the [South Carolina Department of Health and Human Services' \(DHHS\) website](#) to become a Medicaid provider.

Applicant Scoring

Candidates are prioritized using an objective checklist that awards points for categories such as community need, practice type and retention factors (e.g., education and/or training in South Carolina).
