

McLeod Health Rural Family Medicine Residency Program

www.mcleodresidency.org

About the Program

Our nationally recognized programs offer community-based training in the rural counties of Cheraw and Clarendon while also providing the opportunity to train in the 517-bed regional referral medical center in

Florence, SC. Well-rounded residents leave with training in advanced ICU, geriatrics, obstetric, and pediatric skills. Residents benefit from a strong emphasis on procedures – such as colonoscopy, EGD, and central line placement – with specialty clinics and classroom instruction. Our residents handle high-volume inpatient and outpatient settings while receiving hands-on experience in population health challenges.

Cheraw

- Opportunity to work one-on-one with attendings who are recent graduates of the McLeod Family Medicine program
- High volume inpatient and outpatient procedures including central lines, intubations, I&Ds, injections, lumbar punctures, and ultrasound
- Clinic first model with the opportunity to work with specialists in an outpatient setting
- Open and brand-new Intensive Care Unit allowing residents to manage critically ill patients on pressors and ventilators
- Excellent benefits with a competitive salary, moonlighting opportunities, and maximum paid time off
- McLeod Health Cheraw has 57 acute-beds with a brand-new emergency department

McLeod Health

The Choice for Medical Excellence

Clarendon

- Very busy, high acuity Inpatient setting with an open ICU and a chance to be hands-on, on critically ill patients during inpatient months
- Simulation Lab including GI mentor, Ultrasound, Central Line placement, Lumbar Puncture, and other sim devices
- High volume outpatient procedures including I&Ds, injections, lumbar punctures, and ultrasound
- Ob-Gyn in house with opportunities for continuity of care in OB patients and primary deliveries
- Newborn nursery in house with moonlighting opportunities in 2nd and 3rd year
- 24/7 Line and Tube service team, available to residents to get credentialed for central lines and intubations
- McLeod Health Clarendon has 81 acute-beds along with a brand new ICU expected to open next year
