

South Carolina Family Medicine Residency Programs

Prisma Health / UofSC SOM Columbia Columbia Family Medicine Residency Program

www.prismahealth.org

About the Program

Our residents get an intense, broad-range education enabling them to care for patients in any clinical setting and geographic location, be it hospital, outpatient, ER, L&D or ICU. Our graduates go into a range of practices, from rural towns to large hospitals, serving in South

Carolina & around the world. We have professional teaching faculty, vast learning opportunities, innovative curricula, diverse patients & peers, & a friendly, supportive environment.

Key Highlights

- 11-11-11 program, 700 bed hospital
- South Carolina's first practice recognized by the National Committee for Quality Assurance as a Patient-Centered Medical Home
- Future-focused training in innovative care, healthcare quality and safety, and the medical home
- National leader in ultrasound education
- Exceptional training facilities and opportunities: modern Family Medicine Center with integrated electronic health record; Level one trauma center, Palmetto Health Heart Hospital and Children's Hospital; emergency and ambulatory ultrasound training; certification in the Fundamentals of Critical Care; outstanding geriatrics with fellowship opportunities; global health program; practice management; office procedures
- Faculty is large, diverse, and committed to personalized education
- Strong exposure in hospital medicine, outpatient procedures, and chronic disease management.
- Established excellence in Sports Medicine training for residents in addition to an accredited Primary Care Sports Medicine Fellowship. We are the primary care physicians for the NCAA Division 1 athletes from the University of South Carolina
- Growing, diverse mid-sized city with cultural opportunities and affordable cost of living
- Option for outpatient rural track in Winnsboro, SC
