

South Carolina Family Medicine Residency Programs

# Self Regional Healthcare Family Medicine Residency Program

[www.selfresidency.org](http://www.selfresidency.org)

## About the Program

The Self Regional Family Medicine Residency Program has a reputation of graduating excellent family physicians who practice full scope family medicine across a variety of settings. Our American Board of Family Medicine Board Pass Rate is 100% for the entire history of the program which spans over 30 years. We provide specialty tracks including sports medicine, hospitalist, women's health, underserved medicine, international medicine, pediatrics and hospice/palliative care. Nestled within the beautiful rolling hills of the South Carolina Upstate, Greenwood is a friendly town that is a perfect place for outdoor enthusiasts.

SELF REGIONAL  
HEALTHCARE

## Key Highlights

- Strong procedural training across a variety of settings (inpatient, outpatient clinic, OB/GYN, sports medicine, ER)
- Sports Medicine Track & Fellowship – covering seven high schools and two colleges
- Diverse faculty – family medicine, pediatrics, OB/GYN, behavioral health, and sports medicine. All committed to excellence in resident education.
- Point of Care Ultrasound Curriculum and hands-on training
- Global health curriculum – along with a \$3,000 stipend for each resident for international rotations
- Self Regional Healthcare is financially strong and is very supportive of the residency program. The 421 bed hospital provides complete specialty services.
- State of the art Family Medicine Center located directly across from the main hospital
- Resident physicians have their own desk/office space in the Family Medicine Center
- System wide and community wide use of EPIC EHR
- Residency patient population is very diverse, exposing resident physicians to a broad range of age groups, pathology, and procedures
- Resident wellness is fully supported with an excellent work-life balance
- Annual resident retreat, competitive salary and benefits combined with a low cost of living
