

Introduction to the South Carolina Provider Toolkit for Diabetes Prevention

Patricia W. Witherspoon, MD, FAAFP

PH-USC Medical Group, UofSC Family Medicine Residency, Diabetes Advisory Council of SC Pillar 1 Chair

Description

The SC Provider Toolkit was developed to fulfill a recognized need for health care providers to better manage their patients with prediabetes. It is a resource that health care teams may use as a guide to evaluate, test, treat and refer patients to in-person or online evidence-based diabetes prevention programs. The goal is to increase the number of physicians, health care providers and healthcare consumers that recognize prediabetes as a treatable condition.

Objectives

At the completion of this program, the participant will:

- Define prediabetes and identify common risk factors for both prediabetes and diabetes.
- Be introduced and learn how to use the SC Provider Toolkit, which can be incorporated into their practice.
- Learn about the CDC National Diabetes Prevention Program.
- Evaluate, test, treat and refer patients to the evidence-based National Diabetes Prevention Program using the SC Provider Toolkit guide.
