about each date and location.**

Description

Practices in rural South Carolina have unique needs. Health and behavioral health professionals in rural settings encounter unique ethical practice considerations, such as dual or multiple relationships, professional boundaries, confidentiality, community resources and conflicts of interest. This training seeks to provide necessary education and best practices related to unique ethical considerations for interprofessional health services in rural settings.

Objectives

At the completion of this program, the participant will be able to:

- Describe three ethical dilemmas common in rural health and behavioral health practice
- List three ways that professional codes of ethics can be applied to ethical dilemmas common in rural health and behavioral health practice
- Identify three best practices related to ethics in rural health and behavioral health practice.

Cost: Free

This program is free to attend, but registration is required.

For more information and to register, visit:

www.scahec.net/learn
