

Examining the Clinical Learning Environment through a Health Equity Lens

In three online modules, hear from nationally-recognized speakers on addressing patient bias, examining health disparities, and leading change in the clinical learning environment.

Learning Objectives:

- Describe current demographics of healthcare providers and communities in our state.
- Discuss challenges and biases in the clinical learning environment.
- Identify best practices for equitable healthcare to strengthen community vitality.
- Identify one's own role in advancing equity, diversity and inclusion within the clinical learning environment.
