

Practice Management for STI (Sexually Transmitted Infections) and HIV (Human Immunodeficiency Virus) Prevention and Treatment

A part of the Improving STD Prevention and Care through Partnerships Initiative

On-Demand Video

Target Audience:

Nurses and other
healthcare professionals.

Price: Free

This program will provide South Carolina data on sexually transmitted diseases. It will focus on best practices to incorporate STI screenings in a clinic. Additionally, it will cover the correct billing and coding for STI screenings

Objectives:

Upon completion of this program, the participant should be able to:

1. Examine STI's (Sexually Transmitted Infections) in South Carolina including CPT® codes to bill outpatient or office procedures

Learning Outcome:

Eighty percent of the participants will differentiate STI's and utilize current best practices for their treatment and prevention. The learner will apply knowledge of varying CPT® (Current Procedural Terminology) codes to bill outpatient and office procedures.
