

Parkinson's Disease: Evaluation and Treatment

COURSE DESCRIPTION

This course will review the incidence, evaluative criteria and treatment approaches for Parkinson's disease in Physical Therapy practice. It will cover traditional treatment approaches and updated models. The importance of exercise, safety and stretching will be covered with specific interventions that will be applicable for therapists to teach patients and care givers.

OBJECTIVES

Upon completion of this program, the participant should be able to:

1. Identify the cardinal signs and symptoms of Parkinson's Disease
2. Examine the influences of co-morbidities in Parkinson's Disease
3. Devise a comprehensive plan of exercise and safety for Parkinson's Disease intervention in your clinic
4. Develop a home exercise program and follow-up plan upon discharge from the plan of care

CREDIT

AHEC: This program is approved for 0.55 CEU's (5.0 clock hours) by Pee Dee AHEC and meets SC AHEC Best Practice standards. APTA attend 100% of the program and complete an evaluation in order to receive a certificate of attendance. No partial credit will be given.
