

12 Lead EKG: Do You See What I See?

DESCRIPTION

This course has been designed to provide healthcare professionals with practical knowledge regarding the cardiac system, obtaining EKGs, and recognizing the changes on the 12-lead EKG and how they correlate to changes in coronary perfusion. Course content will include information of cardiac anatomy and electrical conduction system; EKG waveforms, EKG interpretation of myocardial infarctions and bundle branch blocks; as well as the recognition and treatment of the MI patient.

OBJECTIVES

Upon completion of this program, the participant should be able to:

1. Describe the major anatomical functions of the heart.
2. Identify essentials of the electrocardiogram.
3. Identify coronary perfusion abnormalities.
4. Describe methods of restoring cardiac perfusion.

TARGET AUDIENCE

Nurses, EMT's, APRN's, PA's, EKG Monitor Technicians, and any other interested healthcare professional

FEE (All payments are required at time of registration.)

Consortium Member: \$40

Non-Consortium Member: \$80

INSTRUCTOR

Wilma Rice, MSN, RN, CEN

Wilma possesses a Master's Degree in Nursing with a specialty in education. She has been a Certified Emergency Nurse since 1988, and formed her own business, Professional Medical Trainers, LLC, in 2012. She retired from Roper St. Francis Healthcare in March 2023. Prior to this, she was an Emergency Department nurse for 28 years and an Education Specialist in Professional Development for 15 years.

Ms. Rice has received honors and awards, including induction into Sigma Theta Tau in 2006 and the 2014 SC AHEC Educator of the Year. In 2020, she was awarded the Palmetto Gold Nursing Award. She has been involved with the South Carolina Coalition for the Care of the Seriously Ill since 2011. Currently, she serves as Chairperson of the Coalition's Education Committee and Senior Educator.
