

STRANGULATION: The Last Warning Shot

Strangulation has been identified as one of the most lethal forms of domestic violence and sexual assault, unconsciousness may occur within seconds and death within minutes. When domestic violence perpetrators choke (strangle) their victims, especially to the point of unconsciousness, it is not only a felony but it may be an attempted homicide. Strangulation is an ultimate form of *power and control* that can have a devastating psychological effect on victims. The inability to breathe is one of the most terrifying events a person can endure.

COURSE DESCRIPTION

This course is held by the Training Institute on Strangulation Prevention and made possible by the McLeod Forensic Nurse Training Program HRSA grant. This course is to bring further information and knowledge to topics of strangulation including "Because We Didn't Know," "If We Only Knew- All Things Medical," "How Do you Know- Investigators," "How Do you Prove It- All Things Legal," and "They Have a Right to Know- Victim Advocacy." This course allows you to understand all aspects of a SARRT team members role in caring for a strangulation patient.

LEARNING OBJECTIVES:

Upon completion of this program, the participant should be able to:

- Justify the need for Strangulation training.
- Identify immediate and delayed signs and symptoms of Strangulation.
- Discuss the importance of trauma-informed interviewing.
- Discuss the importance of seeking care and the lethality of Strangulation.
- Identify resources and long-term consequences for Strangulation survivors.
