### **Learning Outcome:**

As a result of completing this activity, at least 80% of the participants will be able to self-report an increase in knowledge regarding advanced concepts and skills in school nursing leadership, practice effectiveness, and advocacy to support student health and learning.

### **Description:**

Building on the success of Foundations of School Nursing, this advanced continuing professional development (CPD) program equips school nurses with the tools to strengthen their leadership, enhance practice effectiveness, and promote student health and safety. Through six interactive modules, participants will explore advanced topics including policy development, care coordination, legal documentation, data utilization, communication, and conflict resolution. Designed for nurses in all school settings—whether lead, district, private, charter, or per diem—this program frames and structures

professional growth to align with the SCASN Vision, Core Values, and the NASN Framework for 21st-century school nursing practice.
