

AWHONN: Intermediate Fetal Monitoring

Pee Dee AHEC
Area Health Education Center

The updated AWHONN Intermediate Fetal Monitoring Course 8th Edition is a one day instructor led course with online prerequisite education. This course addresses principles of fetal monitoring and may be used as a knowledge assessment to validate proficiencies of experienced perinatal clinicians. This course includes lecture, hands-on skill station exercises about fetal heart rate auscultation, performing Leopold's Maneuvers, placement of an intrauterine pressure catheter and fetal spiral electrode, interpretation of tracings, identification of physiologically based clinical interventions, communication and documentation. This course may be used to support preparation for certification examinations.

8:30am - 5:00pm

**McLeod Medical Park West
AHEC Conference Room, Suite 350
101 S. Ravenel Street

Student Requirements:

Each student must complete the prerequisites prior to attending the in-person session with your instructor. To access the Online Portion of the Intermediate Fetal Monitoring Course you will need the Course ID and Student Materials ID. The Course ID is specific to each course and can be found in the description listed for each individual course. The Student Materials ID can be found inside the front cover of the Student Materials Book. It is recommended that you use Chrome or Firefox to access the online course. Each participant must have a new, unused course packet.

The online course will open 30 days prior to the in-person course and will close at midnight 2 days prior to the in-person course. If you have not completed the online portion, you will not be able to attend the in-person course. The online portion consists of modules and will take approximately 3-4 hours. Modules do not have to be completed in one sitting.

After completing the online modules, the participant will have 2 attempts to pass the prerequisite post-test with a score of 80% or higher to proceed. If participants do not successfully complete the online prerequisite, they will not be allowed to attend the in-person course.

OBJECTIVES

Upon completion of this program, the participant should be able to:

1. Interpret fetal heart rate monitoring using NICHD terminology within a safety culture framework of interdisciplinary teamwork.
2. Describe clinical interventions and related maternal-fetal physiology to optimize fetal oxygenation.
3. Demonstrate collaborative communication in the perinatal setting.
4. Demonstrate common perinatal procedures related to fetal monitoring.

TARGET AUDIENCE

Nurses and providers who have previously completed a Basic FHM course and who use fetal heart assessment and monitoring technology in an antepartum or intrapartum setting

FEE

AHEC Registration Fee: \$10

Course Materials & Modules: \$145 (8th Edition - <https://awhonn.kendallhunt.com/>)

Registration Deadline: One week prior to the date of the class

INSTRUCTOR

Jennifer Desai, RNC-OB, C-EFM, MSN
OB Outreach Educator - Pee Dee Region
McLeod Regional Medical Center

CREDIT

Nurses: CNE will be awarded by AWHONN.

11.25/11.25 CNE/CME contact hours will be provided for completion of the course in its entirety.
