

NURSE EXECUTIVE CERTIFICATION REVIEW

This comprehensive review course is designed to prepare registered nurses for successful completion of the American Nurses Credentialing Center (ANCC) Nurse Executive Certification (NE-BC™) examination. The course provides an in-depth review of the core knowledge, skills, and competencies outlined in the ANCC Nurse Executive Test Content Outline, including leadership, organizational management, financial stewardship, human resource management, quality and safety, regulatory compliance, strategic planning, and professional practice.

Participants will engage in evidence-based learning activities, case studies, practice questions, and exam-taking strategies that reinforce key concepts. The course emphasizes integration of nurse executive competencies with examination preparation strategies to enhance confidence, knowledge retention, and readiness for successful certification.

**Thursday & Friday,
August 20 & 21, 2026**

8:30am - 4:30pm
